

About Us

Qotho Minerals is a South African-based provider of **Certified Reference Materials** and **Proficiency Testing schemes**, purpose-built for the minerals and mining industry.

Our products and services support laboratories, mineral explorers, geologists, and analysts working across various commodity groups with quality, traceability, and confidence in their data.

**PRECISION YOU
CAN PROVE.
QUALITY YOU CAN
DEFEND.**

✓ Why Geologists & Chemists Trust Qotho?

- CRMs designed for practical mineral matrices
- Demonstrated traceability and homogeneity
- Supported by statistical expertise and knowledge of the mineral sector
- Enhancing your lab's compliance, accuracy in exploration, and data integrity

🏆 Our Accreditations

- ISO/IEC 17043:2023 – Proficiency Testing Provider
- ISO 17034:2016 – Certified Reference Material Producer
- SANAS Registered

Our Commitments:

 **Quality First** – We deliver globally recognised CRMs and PT schemes with scientific precision and traceability.

 **Environmental Accountability** – We minimise waste and embed sustainability across our operations.

 **Integrity Always** – Transparent, ethical, and independent in every aspect of our work.

 **Equality & Diversity** – We foster an inclusive, diverse team built on respect and shared purpose.

 **Innovation for Progress** – We lead with digital tools and data-driven solutions for modern geoscience.
