

Engineered for Critical Mining Infrastructure

Geosynthetic Solutions for Lasting Performance

WHERE GEOSYNTHETICS MAKE THE DIFFERENCE

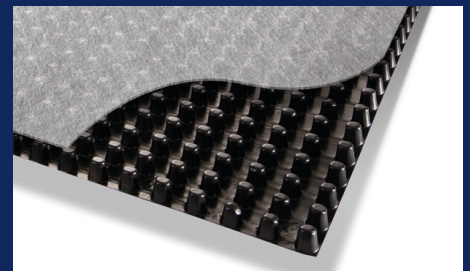

- **Tailing and Waste Containment** – Tailings liner and capping solutions
- **Heap Leach Ponds** – Liner protection and leak detection
- **Mining Haul Roads** – Subgrade stabilization, separation & reinforcement

Nonwoven geotextiles

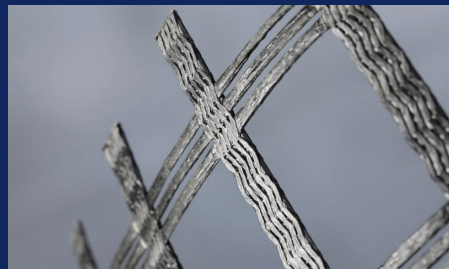

Geogrid (Basal stabilization)

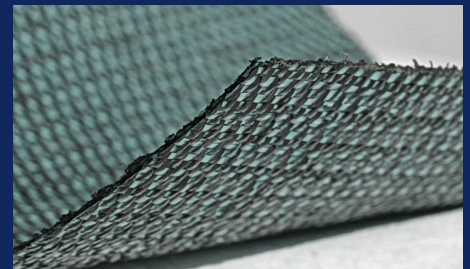

Geocomposites

Geosynthetic clay liner

Techgrid (Reinforcement)

Woven geotextiles

Fibertex
NONWOVENS
