

GROUP OF COMPANIES

Specialising in Engineering Manufacturing and Supply of underground roof control systems which cater for soft and hard rock mining environments. The MSP Group of Companies (MSP) comprises three subsidiaries, namely Mine Support Products (MSP), Mine Support Services (MSS) and Mine Support Innovations (MSI).

SAFE & RELIABLE PRODUCTS

Mine Support Products (Pty) Ltd ("MSP") designs, engineers, manufactures and markets leading-edge safety innovations and technologies for the mining industry.

Set against stringent global mining industry safety standards MSP has built a decades-long reputation for offering the safest and most reliable products and services that improve mining efficiencies and production output.

INNOVATION & DEVELOPMENT

MSP's continuous innovations in products, services and distribution channels have established itself as South Africa's leading supplier of mining support products and innovations.

Initially serving the gold mining industry, the last ten years of research and development has resulted in MSP successfully launching new innovations into the gold, platinum, coal, and open cast local and global mining industries.

SUSTAINABILITY

A focus on long-term partnerships with mining operators to precisely address their safety needs while pioneering sustainable mining practices drives productivity and improves customer yields.

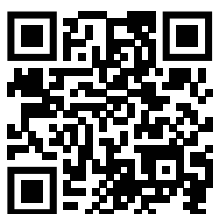

Reputation, adaptability, deep-rooted industry networks and creativity set against a continuous and rigorous safety regulatory environment drive a high demand for MSP's innovative safety solutions.
