

ABSTRACTS RECEIVED

**CoAcumen's technology-enabled data capability:
Empowering businesses on their data journey**
TBC

**Harnessing the power of data analytics and machine
learning in mining: A review**

R.G. Thage, *University of South Africa, South Africa*

**Advancing geotechnical risk management in mining with
spatially enabled and process-driven information systems**

M. Bester, *Anglo American, South Africa*

**Utilizing 4D simulation for construction process and
schedule optimization in an underground potash project**

J. de Klerk, C. Kloppe, E. McLintock, *Fluor, South Africa*

Competency-based training for mine emergency response

R. Bergh, P. Lange, J. Pelders, S. Khan, *Council for Scientific
and Industrial Research, South Africa*

**Assessment of modern training innovations for
supervisors and trainers in the South African mining
sector**

M. van Schoor¹, N. de Kock², S. Khan¹, R. Müller³,
R. van Rensburg³, K. Govindasamy⁴, W. Botha⁵, B. Sereme¹,
M. Mpofu¹, J. Pelders¹, S. Ramparsad⁶, ¹*Council for Scientific
and Industrial Research*, ²*Louis Allen Southern Africa*,
³*SML4Change*, ⁴*The Research Institute for Innovation and
Sustainability*, ⁵*Enterprises University of Pretoria*, ⁶*Mandela
Mining Precinct, South Africa*

**Assessment of waste management and renewables-
related training innovations towards mining sustainability**

M. van Schoor¹, N. de Kock², S. Khan¹, R. Müller³,
R. van Rensburg³, K. Govindasamy⁴, W. Botha⁵, B. Sereme¹,
M. Mpofu¹, J. Pelders¹, S. Ramparsad⁶, ¹*Council for Scientific
and Industrial Research*, ²*Louis Allen Southern Africa*,
³*SML4Change*, ⁴*The Research Institute for Innovation and
Sustainability*, ⁵*Enterprises University of Pretoria*, ⁶*Mandela
Mining Precinct, South Africa*

**Sustainable adoption of technology in the South African
mining industry**

S. Ntsoelengoe¹, J. Pelders¹, W. Botha², R. Müller³,
N. de Kock⁴, S. Ramparsad⁵, ¹*Council for Scientific and
Industrial Research*, ²*Enterprises University of Pretoria*,
³*SML4Change*, ⁴*Louis Allen Southern Africa*, ⁵*Mandela Mining
Precinct, South Africa*

**Green skills and digitalisation in advancing South Africa's
Just Energy Transition**

K. Govindasamy¹, T. Swettenham¹, S. Ramparsad²
¹*The Research Institute for Innovation and Sustainability*,
²*Mandela Mining Precinct, South Africa*

**Application of a best-practice evaluation matrix towards
enabling modern technology and digital systems adoption
in the South African mining and manufacturing industries**

V. Mahadeo¹, S. Ramparsad², K. Govindasamy¹, W. Botha²,
¹*RIIS*, ²*Mandela Mining Precinct*, ³*AutoIH, South Africa*

**Managing innovation projects to improve underground
mining operations – insights from the field**

J. L. du Toit, *AMC Consultants, South Africa*

**Development of a digital ground control management plan
(DGCMP) for underground mines using AI algorithms to
forecast potentially fall of ground area**

D. van Rooyen, *Anglo American, South Africa*

**A distributed radar system for narrow reef stope
geotechnical convergence monitoring**

D. van Rooyen, *Anglo American, South Africa*

**Rethinking mining automation: Tackling safety and
efficiency challenges at the edge with minezone**

B. Hart, *Metal Management Solutions, South Africa*

**A comparative analysis of implicit modelling and
geostatistical methods for geometallurgical block
modelling and resource estimation**

T. Chauke, F. Mulenga, *University of South Africa, South
Africa*

**Utilisation of drone technology to monitor blasting
performance for the undercutting of Lift 2 block cave at
Palabora Mining Company**

T. Chauke¹, F. Mulenga¹, V.C. Madanda¹, N.M. Chiloane¹,
G. Mtleni², M. Cloete², T. Lepheana², D. Ntuli²

¹*University of South Africa, South Africa*, ²*Palabora Mining
Company, South Africa*

**Demystifying real time information management systems
in underground mining – the gamified 3d digital twin of a
conventional stoping operation**

A. Torlutter, *Digital Twin, South Africa*

**Digitilisation of geotechnical data and information
management to improve operational routines for Venetia
Mine**

J. Walls¹, F. Breed², T. Mokele², ¹*Anglo American*, ²*De Beers,
South Africa*

**Grinding circuit throughput optimization through first-
principles digital twin modeling**

Y. Valdez-Navarro¹, A. Thivierge², Y. Zhang¹

¹*Hatch Ltd*, ²*Jumina Inc, Canada*

A Practical Approach to Digitization in Mining

E. Loubser, *Data Loop, South Africa*

**A concept demonstration on how to revolutionize mining
operations through digitalization transformation with
an application using an underground digital wireless
communication network**

L. Erasmus, *Council for Scientific and Industrial Research,
South Africa*
