## Northam Platinum Technical Visit

Date: Wednesday, 29 October 2025

### BACKGROUND

The site that will be visited is Northam's Processing facility which includes the Smelter, Base Metal Removal Plant and Recycling Facility. This site processes all of the concentrate produced and purchased in the Northam Group and produces multiple products including, PGM concentrate for final refining, copper cathodes and nickel sulphate. Northam has undertaken various projects over the last eight years to increase capacity of the site, reduce risk, improve safety and reduce environmental impact. Through this Northam has implemented various new
